Body Print®

Features 3 ergonomically balanced zones of support. Designed to give the correct amount of support to the shoulder, hip, and calf while maintaining correct spinal alignment.

Undisturbed Sleep

Individually encased coils *flex independently to prevent partner and motion disturbance*, and are naturally quiet, for a more peaceful, undisturbed night's sleep.

Contouring Support

Body Print® encased coil system is designed to conform to your individual body contours. Every part of your body is supported from head to toe to maintain correct spinal alignment.
